TURF ETC LLC DBA SUMMIT FLOORING AND TURF ANNOUNCES WBE CERTIFICATION BY THE CITY OF KANSAS CITY, MISSOURI

Proud to be a Women Business Enterprise

Lee's Summit, Missouri, December 15, 2016— After a career in real estate, Angela Grego launched Turf etc LLC which specialized in synthetic grass applications. Following a tremendous growth in sales, and recognizing the need to expand both products and services to a broader territory, she soon formed Summit Flooring & Turf. The newly launched company moved into a much larger space in Lee's Summit with a beautiful showroom, offices, warehouse and vehicle storage lot. A gorgeous, functional putting green welcomes all visitors to the business!

Angela's most recent achievement was becoming a certified WBE (Women Business Enterprise) by the Human Relations Department of the City of Kansas City, Missouri. This distinction recognizes Summit Flooring and Turf as a woman-owned, Kansas City-based installer and authorized supplier of SYNLawn[®] synthetic grass for landscape, playground, pet, golf, roof, decks/patios, batting cages, and athletic facilities. In accordance with the requirements for certification as a Women Business Enterprise (WBE), as defined by Chapter 3 Code of General Ordinance, it has been determined that Angela's company qualifies for participation in the WBE Program, and that the work performed by her company will count toward contractual WBE goals. WBE ensures opportunities for minority, woman, disadvantaged-owned

and small local business companies on projects funded by City taxpayers. It also ensures that companies doing business with the City have fair hiring practices. She is also a member of NFIB (National Federation of Independent Business) and NAPW (National Association of Professional Women).

“After months of hard work, research, persistence, patience, mountains of paperwork, and a dose of good luck, we were able to achieve the monumental feat of being certified as a Women Business Enterprise (WBE) by the city of Kansas City, Missouri. Having completed this process, it would be my honor to mentor and empower other women in the area to start their own businesses as well!” says Angela Grego, owner.

Summit Flooring and Turf is also a full-service Mohawk Color Center Elite flooring store and Karastan dealer, offering sales and installation of all carpet, wood, ceramic and porcelain tile, LVT, and vinyl, for residential, commercial and multi-family.

Angela’s team has recently completed new playground installations for several school districts including Lee’s Summit, Blue Springs, Blue Valley and Independence. Dan Anderson, director of buildings and grounds for the Blue Springs R-IV School District says, “We have worked with SYNlawn for the past 4 years. This has included sales, installation and maintenance of over 200,000 sq ft of playground turf. They have always been "top notch" in every aspect of their business and every person associated with the turf (students, staff and parents) has been complimentary of the quality. From a maintenance response to any issues such as vandalism or changing out of playground equipment SYNlawn has been professional, prompt and delivers a high quality repair.”

Summit Flooring and Turf is dedicated to excellence in providing the highest quality and service to exceed client expectations. Our company is based on family traditions and principals, and we take pride in developing lasting relationships. Flooring services include commercial and residential sales and installation of carpet, ceramic & porcelain tile, hardwood, laminate and vinyl, LVT, and rug & carpet binding. We also offer approximately 25 varieties of synthetic turf for residential and commercial projects such as landscapes, putting greens, rooftops/patios, pet areas, playgrounds and sports fields.
